SCIENCE

Our planet is full of huge variety of life. The flora (plants) and fauna (animals) differ from area and regions throughout earth. This activity aims at creating awareness amongst students regarding the diversity in life.

Students will explore the biosphere in their vicinity. Observations to be done on the basis of details of flora- fauna according to following parameters:

- a) Seasons in which the observation was conducted.
- b) Name and features of the flora and fauna.
- c) Supporting evidence in terms of photographs.
- d) Specific type of soil in which the flora grows.

Or

Study the aquatic life of a water body in your vicinity (if present)

(It can include drain / ponds / lakes) and also follow all the steps given above.

SOCIAL SCIENCE

Do the project work uploaded on school website.
